

# THE FACTS

D.T.I. RESEARCH REVEALS THAT FAULTY ELECTRIC  
BLANKETS CAUSED

**5,000** Fires which were dealt with by the householder

**816** Fires caused by blankets over 10 years old, requiring the attendance of the Fire Brigade resulting in significant damage to property

**19** Deaths (89% involving persons over the age of 65)

Many blankets are potentially lethal and their owners are literally.....

**“SLEEPING WITH DANGER”**

**60%** fail safety tests

**40%** are considered unsuitable for further use

G.E.M.S. engineers have tested over **180,000** Electric Blankets for Fire Brigades, Trading Standards Departments and Charities Nation-wide. We are independent of the manufacturers and tailor our services to suit your needs.

**YOU CAN MAKE A DIFFERENCE**

**REPLACEMENT PROGRAMMES UNDERTAKEN**
